- Analytical
- Creative
- Teamwork
- Communication
- Leadership
- Adaptable
- Quick Learner
- Multilingual: English, Urdu, Pashto

EXPERIENCE

- Independent Developer (6 Months) – Built multiple projects using Spring Boot, React, Java, and Figma.
- Code with Alpha (3 Months, Certified) – Completed real-world tasks; earned certificate & recommendation.

EDUCATIONS

- **BS Software Engineering – Abasyn University, Peshawar (5th Semester, Ongoing)**
- **F.Sc (Pre-Medical) – Muslim School & College, Peshawar (Grade A)**
- **Metric (Science) – HIST School & College, Hangu (Grade A+)**

PROFILE

- Creative and disciplined Full-Stack Developer with strong command of Spring Boot and modern front-end tools. Also a UI/UX professional designer, prompt engineer, and SEO strategist — a rare blend of engineering and creativity. Known for turning complex ideas into clear, scalable solutions and for designing experiences that connect deeply with users. Currently working on AI-driven projects that explore areas where even the largest companies have not yet delivered.

SKILLS

- Backend Development: Spring Boot, Hibernate, JPA, Servlets, REST APIs
- Frontend Development: React, Thymeleaf (templating engine), JavaScript (ES6+), HTML5, CSS3, Bootstrap 5
- Databases: PostgreSQL, MySQL, MongoDB
- UI/UX Design: Wireframing, Prototyping, User-Centered Design, Figma (expert level)
- AI & Prompt Engineering: LLM prompt design, conversational workflow building
- SEO & Optimization: On-page SEO, Technical SEO, Content Optimization
- Other Tools: Git/GitHub, Postman, C3P0 Connection Pooling

PROJECTS

(Full review videos available in the portfolio's project section.)

- Portfolio Website (Spring Boot + Thymeleaf) – Professional portfolio with smooth UI and navigation.
- Smart Contact Manager (Spring Boot + Thymeleaf) – Full contact management with auth and dashboard.
- Word Counter & Calculator (Java) – Logic-focused tools with clean coding.
- NewsApp (React) – Dynamic app delivering live news updates.
- TextUtils (React) – Text manipulation toolkit (counting, formatting, trimming).
- Product Management System Services (Spring Boot) – Scalable backend for managing products and orders.
- QuizApp Microservices (Spring Boot) – Modular microservices for quizzes, users, and results.
- Zarad Store (UI/UX – Figma) – E-commerce site design prioritizing user flow and responsiveness.
- Landing Page for Tech Startup (Figma) – Professional, engaging startup page.
- Food Management Dashboard (Figma) – Clean, data-focused dashboard for food operations.
